- Built WooCommerce stores with payment gateway, shipping and order-management integrations (Razorpay, Shiprocket, WhatsApp).
- Developed custom WooCommerce features and plugins to streamline client business operations.
- Implemented on-page and technical SEO, schema markup and performance optimization.

Junior WordPress Developer | SAROVI Software Solution, Indore, India — Jun 2024 – Apr 2025

- Developed custom themes and WooCommerce sites; integrated payment gateways, forms and third-party APIs to client specs.
- Worked in multi-developer Git workflows, resolving merge conflicts and following clean branching practices.
- Managed deployments end to end: SSH/WP-CLI, staging-to-production releases, SSL and backups.
- Applied security best practices (nonces, sanitization, escaping) and cross-browser testing.

PROJECTS

SubziQuick — Hyperlocal Grocery Delivery Platform (Personal Project) — Next.js, React, Node.js, Express.js, MongoDB | subziquick.in

- Built and launched a quick-commerce web app for fresh vegetables and fruits in Bhopal, covering product catalog, category browsing, search, and pack-size pricing.
- Implemented the customer flow end to end: cart, wishlist, user login/profile, order placement with cash on delivery, and order tracking.
- Added delivery features: location selector, scheduled morning delivery slots, and offers/coupons, with WhatsApp and phone ordering as extra channels.
- Used Next.js for fast, SEO-friendly pages and Node/Express APIs with MongoDB for products, users and orders; set up Search Console and policy pages (privacy, refund, delivery).

Headless WordPress + Next.js Job Portal — WordPress, Next.js, React, GraphQL, JWT, Docker, AWS EC2

- Decoupled a WordPress job portal with REST/GraphQL APIs and a Next.js server-side-rendered front end; JWT-protected employer dashboard.
- Containerized with Docker and deployed a proof-of-concept on AWS EC2.

Smart SEO Schema Generator (WordPress Plugin) — PHP (OOP), AJAX, REST API, JSON-LD, MySQL

- Built a production-grade plugin supporting 12+ Schema.org types (FAQ, Product, Article, LocalBusiness) with admin dashboard, live preview and import/export.
- Auto-detects Elementor and Gutenberg content; cached with the Transients API and secured AJAX/REST endpoints.

AI Travel Chatbot — Janu Private Tours — PHP, JavaScript, AJAX, MySQL, AI API | januprivatetours.com

- Built an AI chatbot for a Jaipur-based tour operator, live in production, to answer traveller queries, recommend tour packages and hand off to WhatsApp.
- Created an admin dashboard to manage conversations, captured leads and inquiries, stored in custom database tables with secure AJAX handlers.

Origammi by Dra — Skin & Aesthetic Clinic Website — WordPress, Elementor, PHP, SEO | origammibydra.com

- Developed a multi-page clinic website with 25+ treatment pages, 20+ skin-concern pages, appointment booking, gallery, blog and newsletter signup.
- Optimized for mobile responsiveness, page speed and on-page SEO.
